NAPOLEON HILL

A Musical

10-19 March 2012

Produced by **J.D. MENON**

* Musical tickets are sold separately

About Napoleon Hill...

Napoleon Hill met Andrew Carnegie as a young man and was invited to pursue a project to discover and quantify the secrets of successful businessmen. During the next 20 years, Carnegie helped arrange for Hill to interview more than 500 of the most influential persons of the time. Hill's curiosity and personal magnetism led to close friendships with many of these men and women, including Thomas Edison, Henry Ford, Harvey Firestone, Theodore Roosevelt, and Alexander Graham Bell.

Thanks to these interviews, Hill developed a total of 17 principles of success thinking. He spent the rest of his life refining and teaching his success philosophy, written most famously in his book, **Think and Grow Rich**. These success principles are timeless and have been adopted by most modern motivation and self-improvement icons such as Anthony Robbins, Steven Covey, and Bob Proctor.
